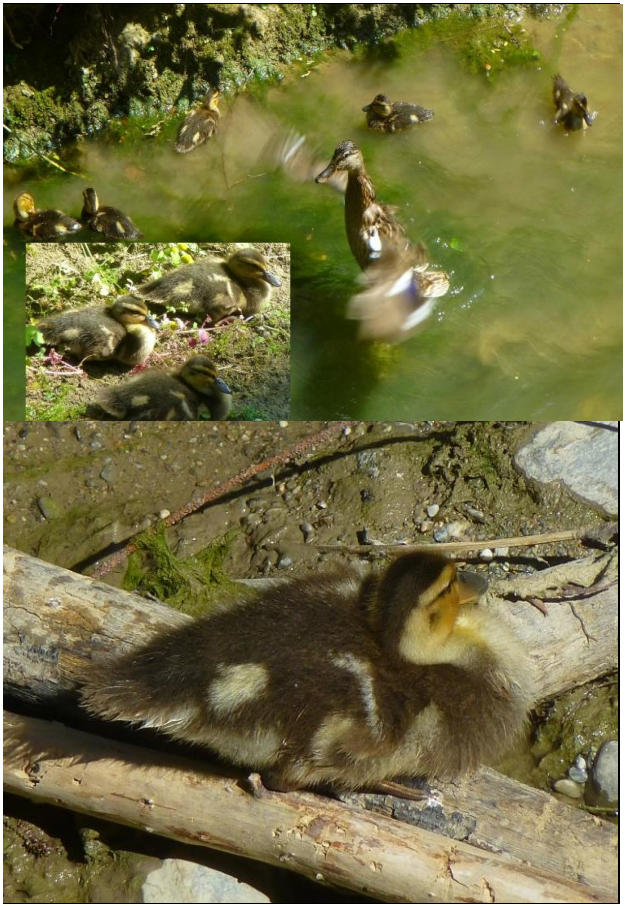
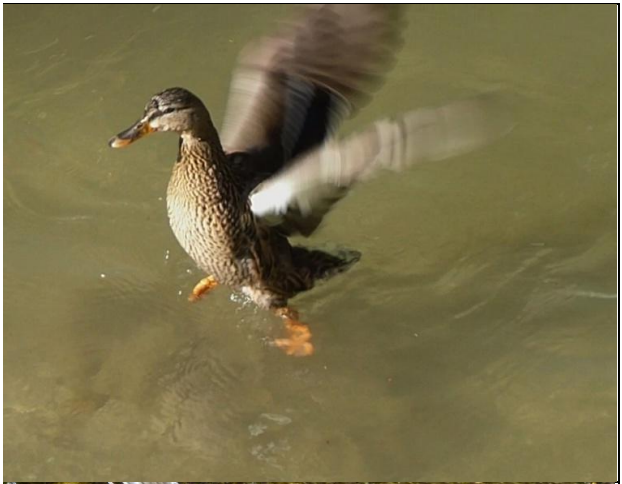
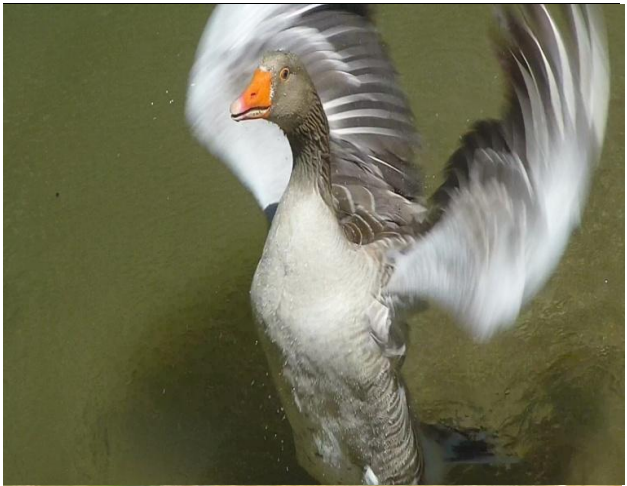
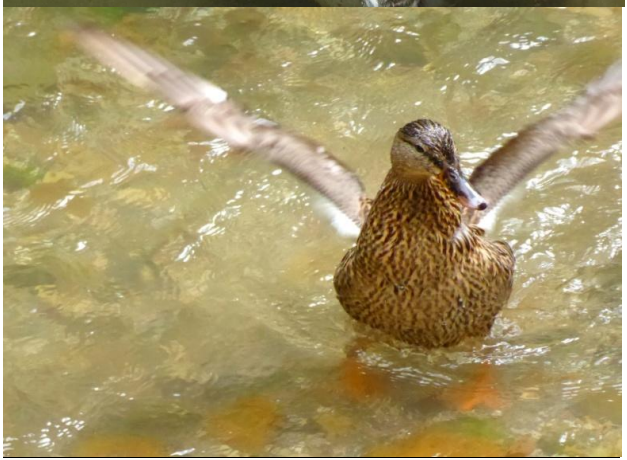
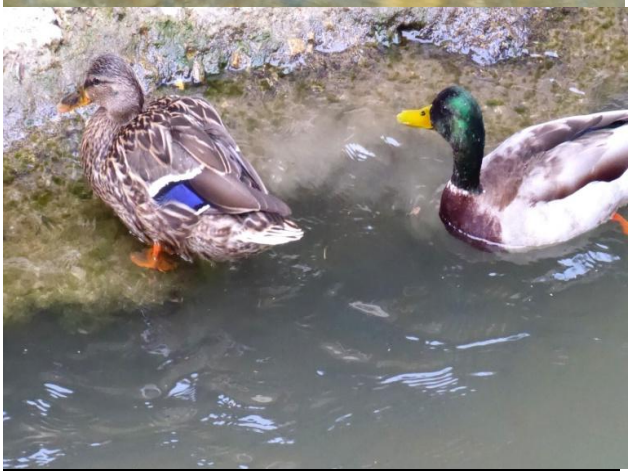
La simpática vida en
las aguas de los ríos

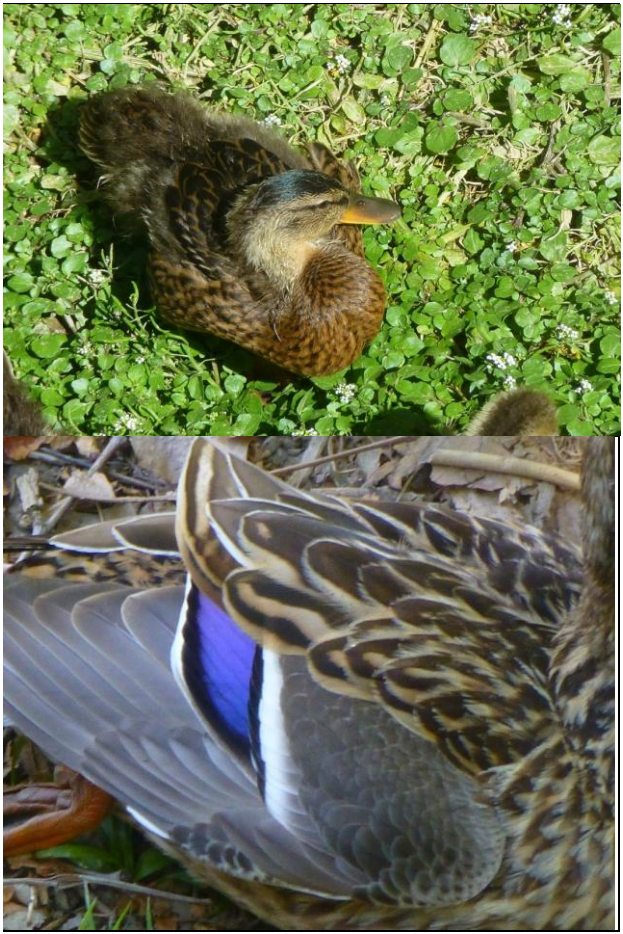


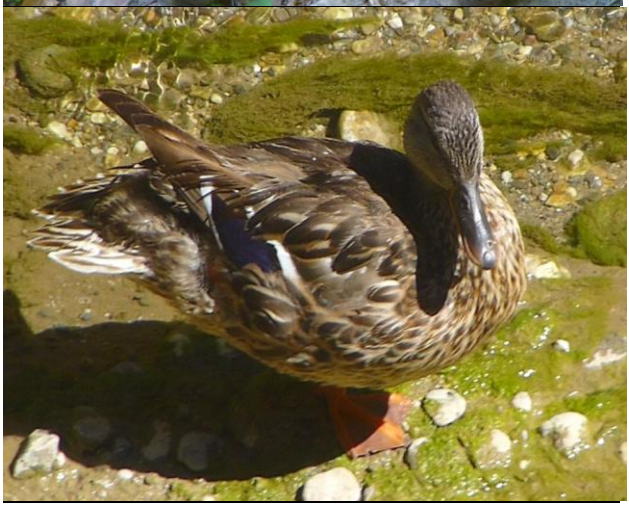


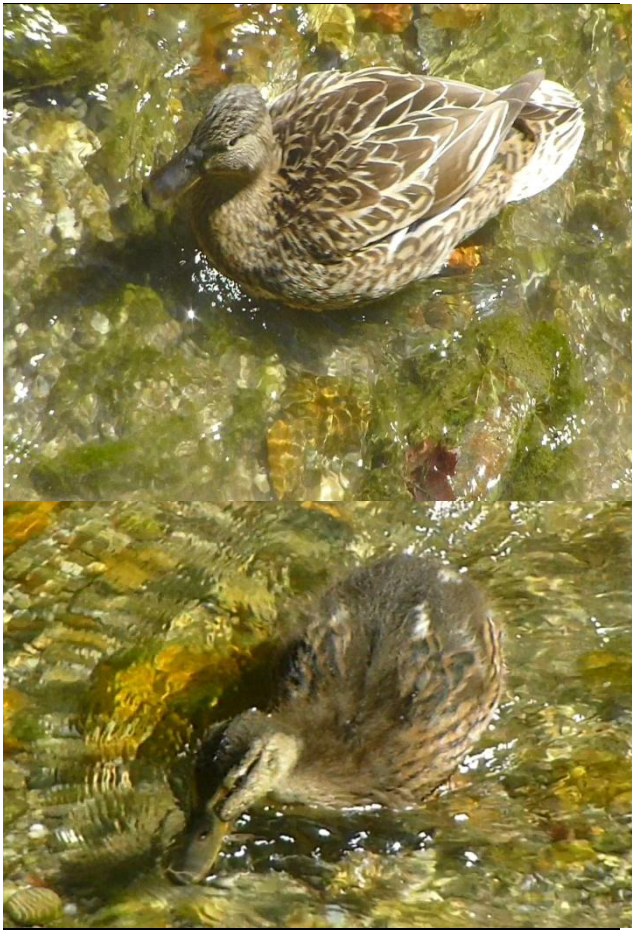


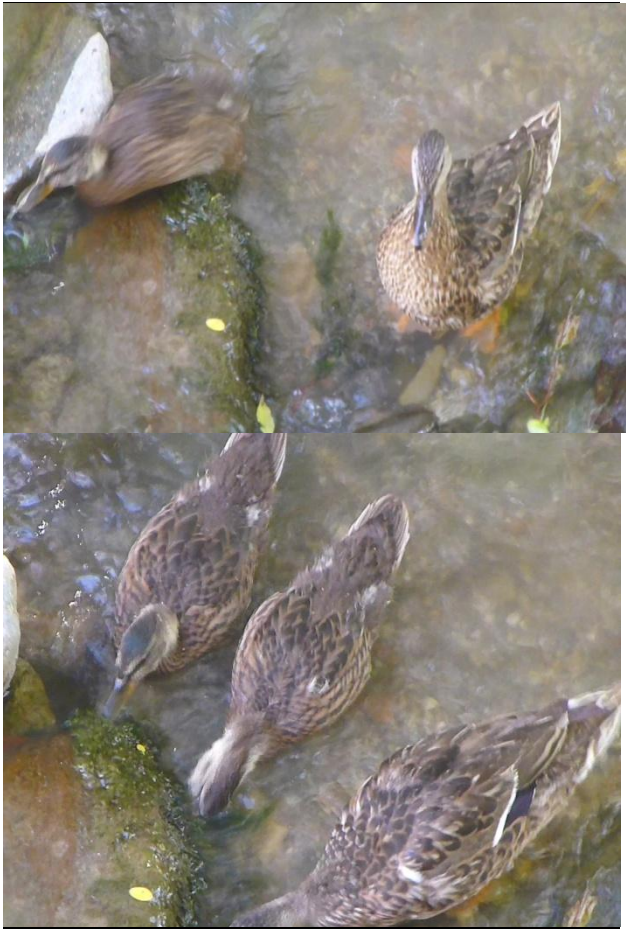


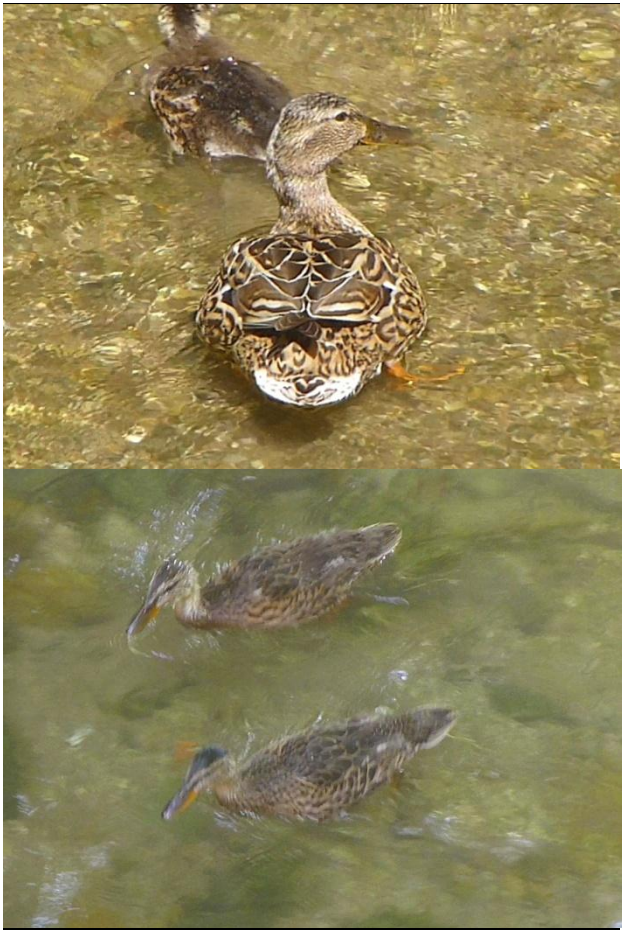


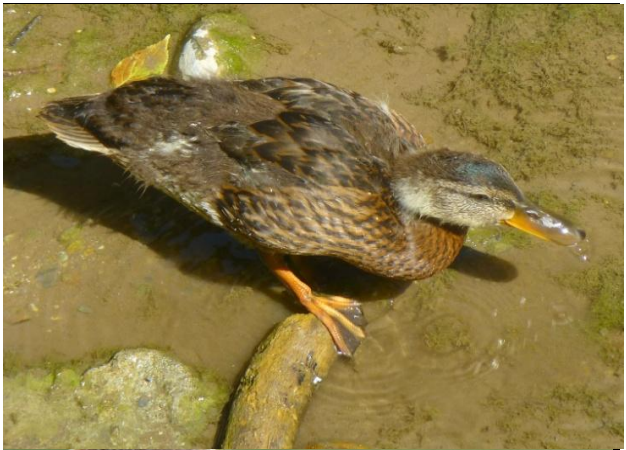


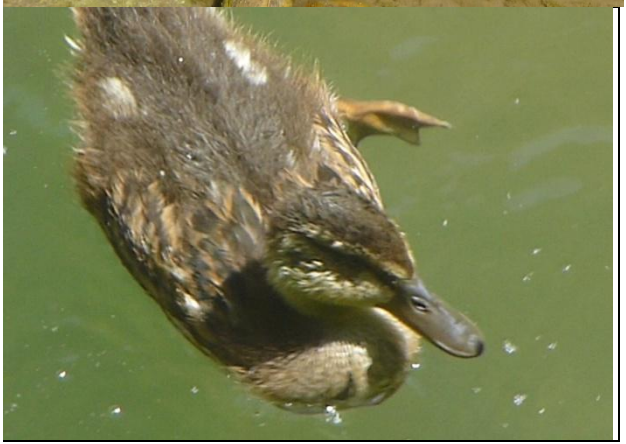


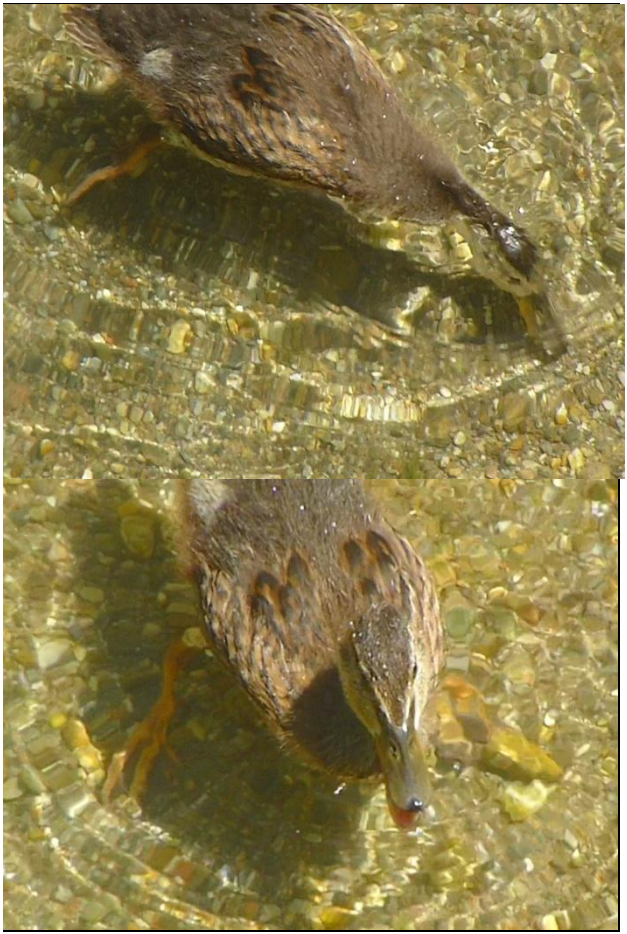


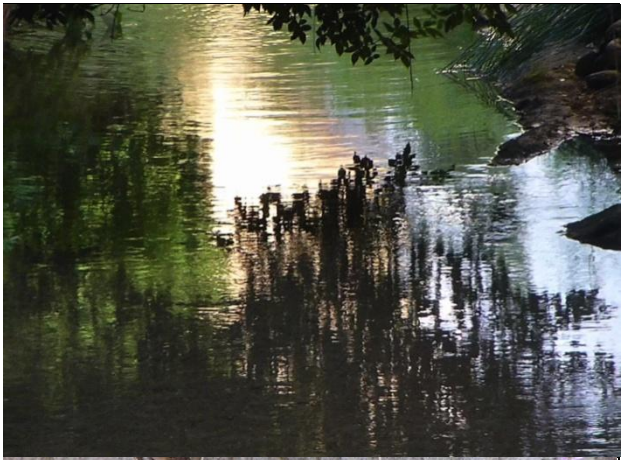


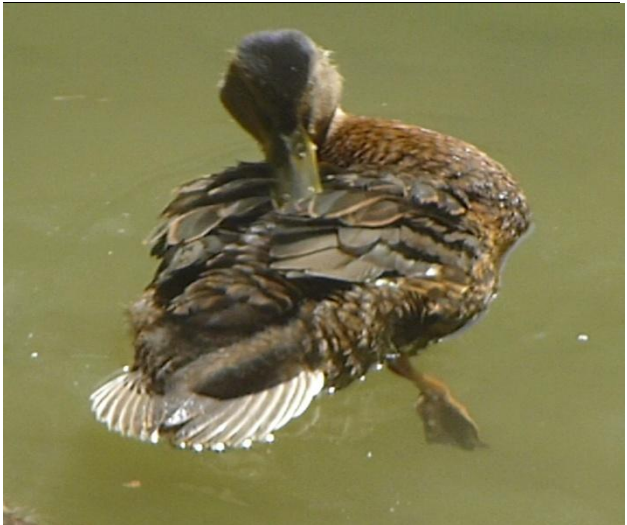


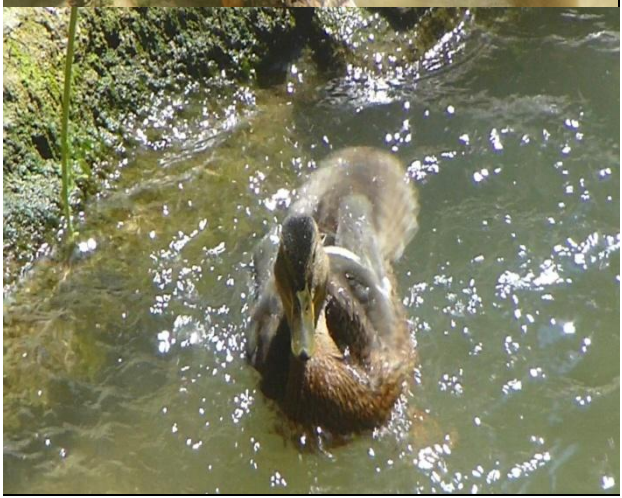


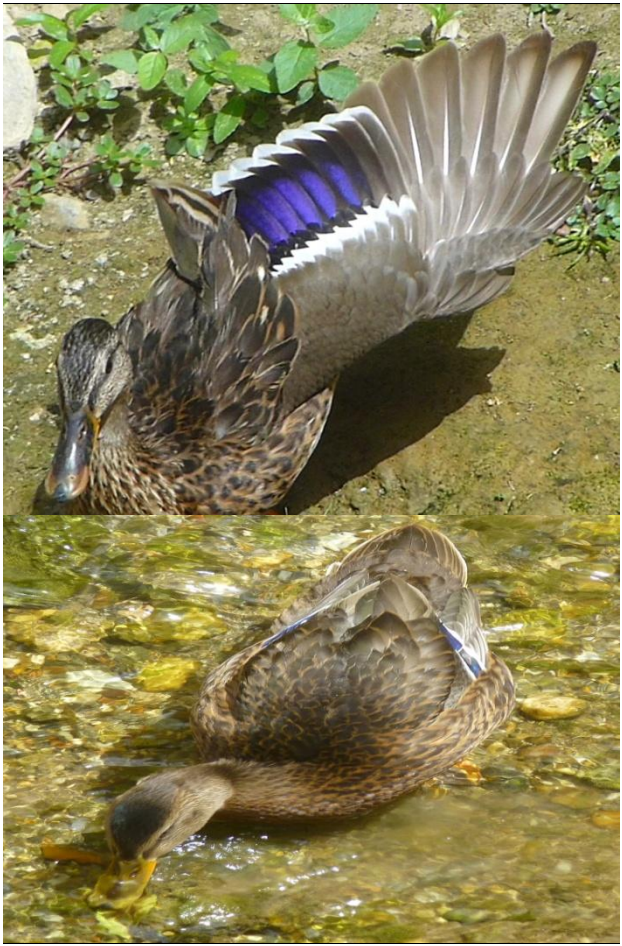


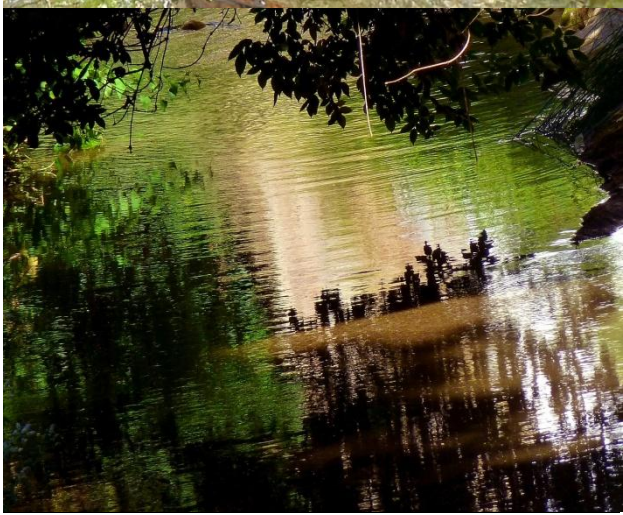


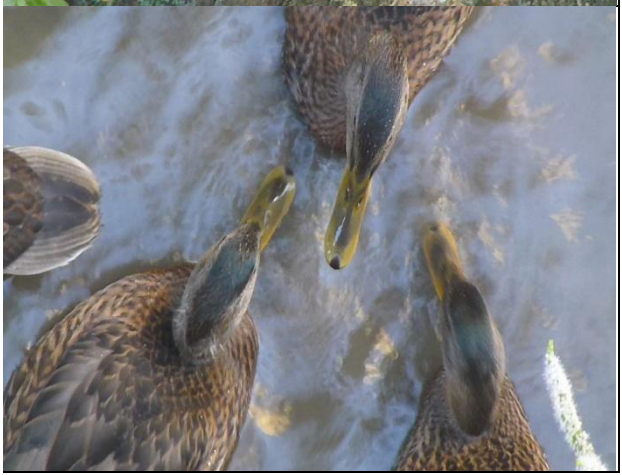


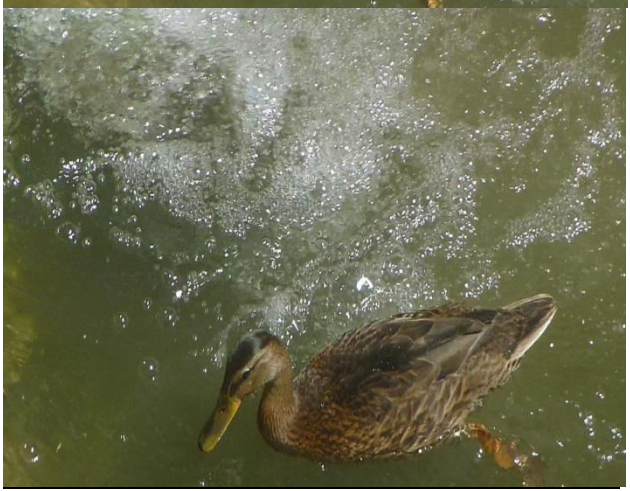


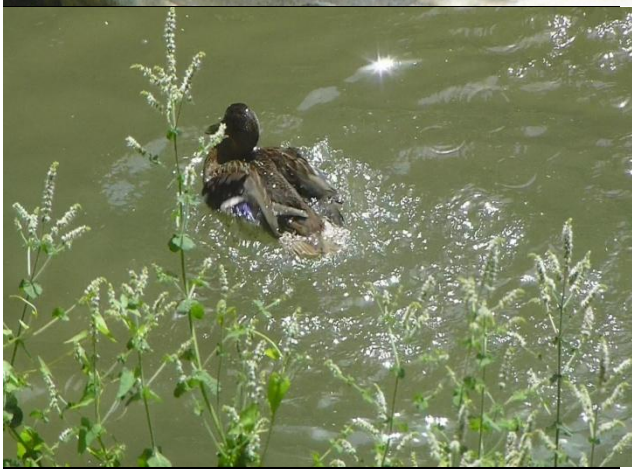


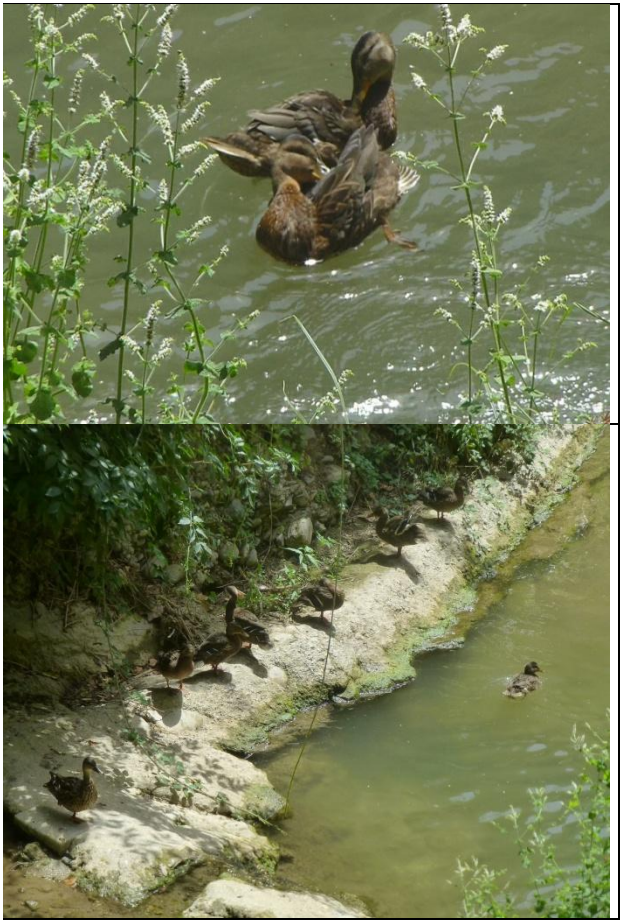


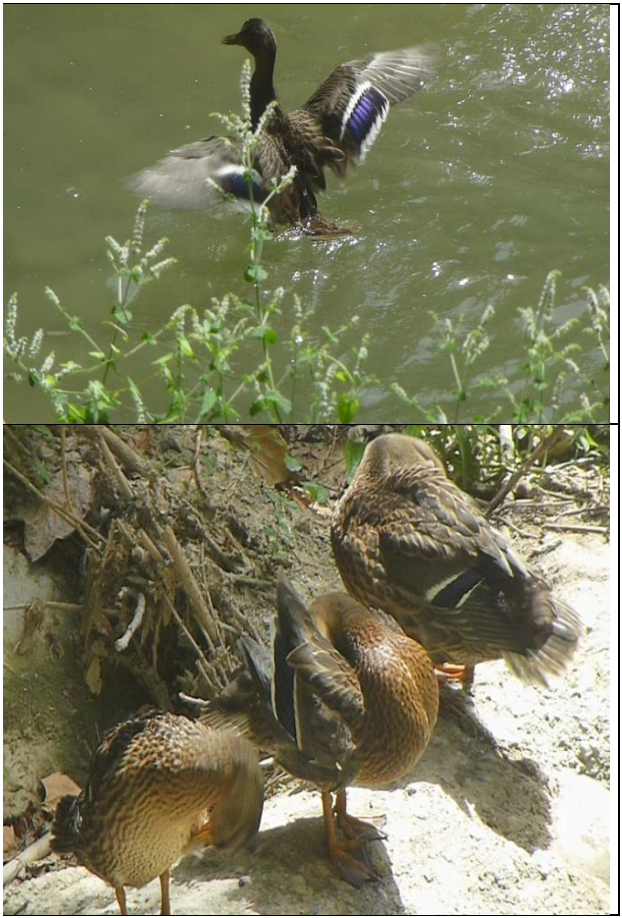


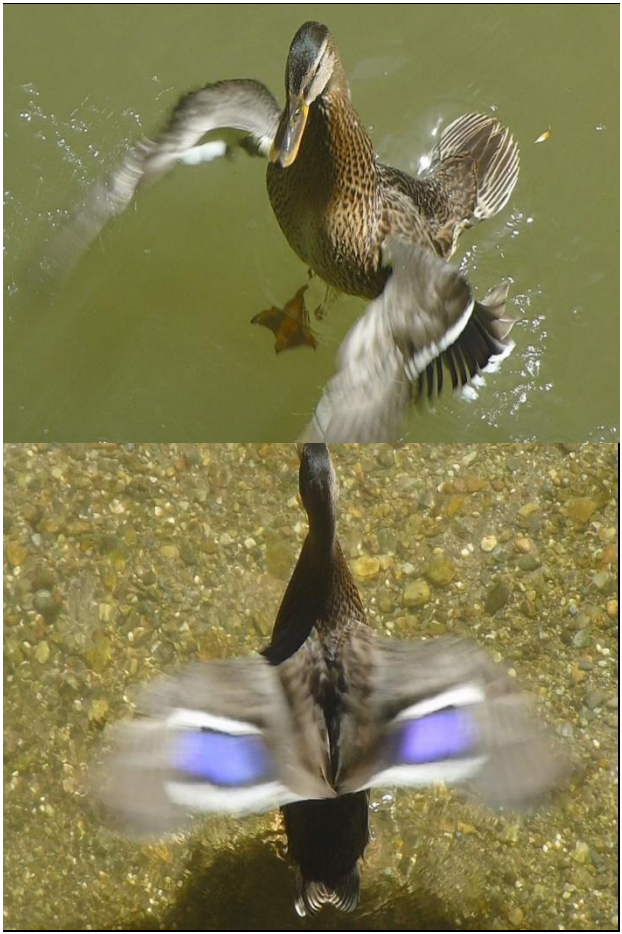


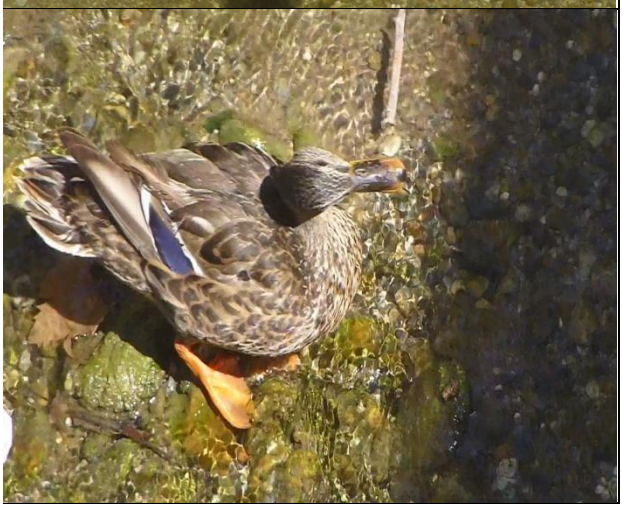


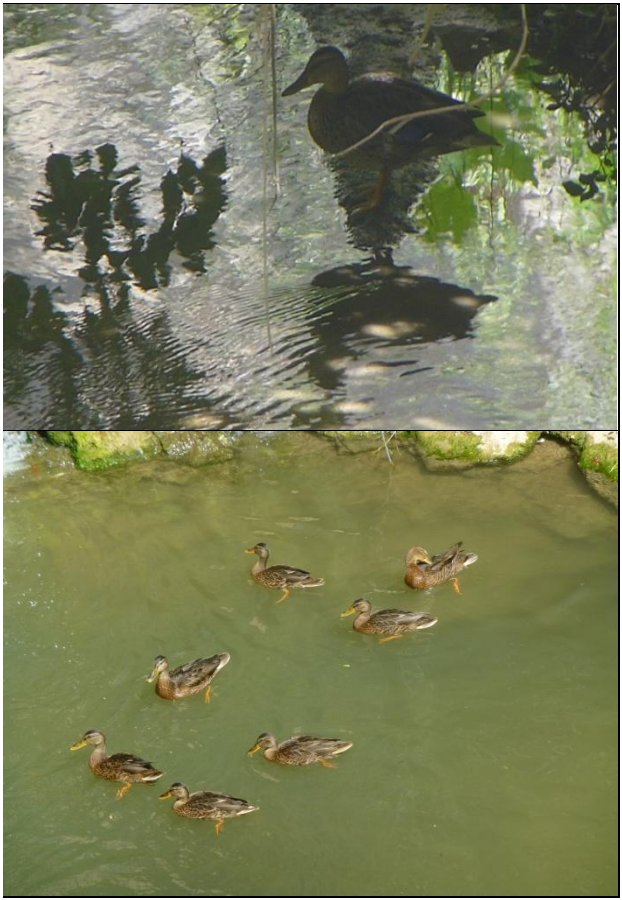


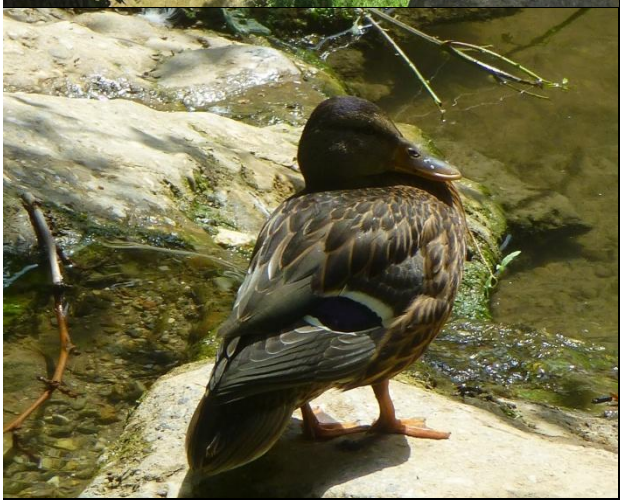


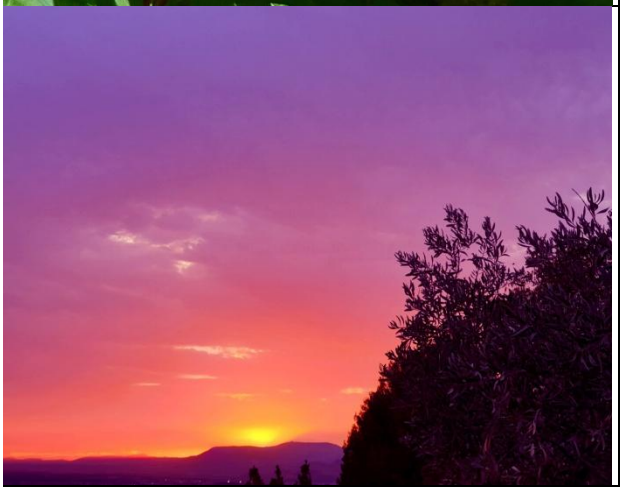












Recuerdos del río Darro a los pies de la Alhambra. Granada, Andalucía, España

El río que corre cristalino
rozando las murallas de la Alhambra
entre álamos y zarzas escondido,
es espejo y abriga en su alma,
los silencios y secretos más bonitos.
¡Cuánto saben y proclaman las aguas
de este bellísimo y transparente río,
ruiseñor enamorado de Granada!
